PROFESSIONAL PROFILE

Worked hands-on with AI-powered SaaS products for 4.5 years — not as an engineer, but as the person who defined what good output looked like, identified where it fell short, and drove iteration until it met real user needs. Designed LLM prompt frameworks, structured unstructured data for AI pipelines, evaluated output quality end-to-end, and traced errors back to root cause.

The other half of the role was equally hands-on: owning GTM execution for the same AI platform — building a 19,000+ prospect database using Clay and LinkedIn Sales Navigator, running multi-channel outreach via Brevo and GMass achieving ~50% open rates, and connecting product, data, and engineering to ship AI features that solved real user problems.

The thread connecting both: translating what AI can do into what the business actually needs — and making sure the gap stays closed.

PROFESSIONAL EXPERIENCE

Senior Associate – GTM Operations & AI Automation

ZoomRx Healthcare Technologies

Sep 2022 – Apr 2026

- Owned end-to-end go-to-market execution for an AI-powered SaaS platform — from feature readiness through launch and adoption across B2B segments.
- Designed and iterated LLM prompt frameworks used in live healthcare intelligence products; evaluated AI output quality end-to-end against user requirements.
- Structured unstructured data for AI/LLM pipelines — cleaned, formatted, and prepared inputs for model consumption.
- Traced errors in AI systems to identify root causes; acted as the bridge between product, data, and engineering to translate AI output issues into actionable fixes.
- Built and scaled a 19,000+ prospect database using Clay, LinkedIn Sales Navigator, and ZoomInfo — segmented by ICP, enriched with intent signals.
- Designed and executed multi-channel outreach campaigns via Brevo and GMass, achieving ~50% average email open rates — significantly above B2B benchmarks.

Associate – Product Marketing & Operations

ZoomRx Healthcare Technologies

Nov 2021 – Sep 2022

- Managed product positioning and cross-channel messaging, ensuring consistency from launch through ongoing adoption.
- Structured and standardised regulatory intelligence and FDA datasets to enable downstream AI workflows and commercialisation use cases.
- Shaped early-stage AI workflow processes through content structuring and close coordination with internal data and product teams.
- Produced lifecycle emails, blog content, and LinkedIn campaigns to drive demand generation and audience engagement.

Intern – Marketing & Product Support

ZoomRx Healthcare Technologies

Aug 2021 – Oct 2021

- Assisted in content development, research, and internal documentation for product and marketing teams.
- Organised marketing knowledge assets to improve campaign execution efficiency.

Business Development Associate

BYJU'S

Jan 2021 – Feb 2021

- Ran consultative outreach and lead engagement to support customer acquisition and revenue pipeline growth.

TOOLS & TECHNOLOGY

AI & LLM Platforms: ChatGPT, Claude, Gemini, Azure AI Foundry, ChatGPT Playground (prompt testing & optimisation), Google Colab

Growth & Outreach: Clay, Brevo, GMass, LinkedIn Sales Navigator, ZoomInfo, Clora

Content & Creative: Canva, Synthesia, Descript, Claude Code, Cursor

Product & Analysis: Linear, MS Excel, PowerPoint, Word, Google Cloud Storage

Languages: English, Hindi

EDUCATION

PGDM – Marketing & International Business

2018 – 2020

ISBR Business School, Bangalore

Bachelor of Business Administration

2012 – 2015

Chhatrapati Shahu Ji Maharaj University (CSJMU), Kanpur

CERTIFICATIONS & ACHIEVEMENTS

- Product Management: An Introduction — IBM / Coursera, 2026
- Winner – FKCCI Manthan Business Plan Competition (2019)
- Winner – GAP Analysis Competition (2019)
